Absence - medical evidence

As I am sure you will understand, procedures regarding the overview of attendance are a vital component of our safeguarding and child protection commitments. If a child is poorly for more than 3 days, it is in the best interest of that child to be seen by medical professionals so that they can be treated. If a parent is concerned about a child's health and keeps them at home without seeking medical advice, it raises concerns because safeguarding is also about preventing harm to children's health or development.

As a school, the rationale to requesting such information is that we are preventing children from harm/neglect due to parents' failure to seek medical attention when needed. It also shows that we are taking all the necessary steps to safeguard children

Most of our parents have genuine reasons when they contact the school regarding absence. However, as a result of safeguarding issues in the past which have been highlighted by unexplained absence, we have adopted these measures to safeguard all children in school. It is impossible for us to determine which ones are genuine cases and which are not so we must apply the policy to all families.

This evidence does not have to be in the form of a doctor's note; it could be a signed compliment slip from the doctor's surgery confirming that your child has seen a doctor at the practice or a named and dated prescription medicine. Please note that over the counter medicines are not sufficient.

Rounders Success!

Pupils from Year 5 and 6 competed in the Bedworth Rounders Tournament last night and came joint second. It was a close competition all the children played well and their behavior was excellent. They all really enjoyed it. Well done
