

## Coventry Blaze Assembly

This morning the children were treated (on their first day back in the new term) to an informative assembly from Mark Cantin and Shawn Boutin, both players for the local hockey team.

They chose one of our year 5 pupils to don the team strip - all the while explaining the importance each piece plays in keeping the player safe in such a full- on contact sport.

Mark also showed us the full face metal guard on the helmet and explained that players must wear this till they are 18 years old, after this they can wear a half face Perspex guard... However you can see from one of our photos, the problems that this can cause when you get hit with a fast moving puck.
